"A medium amber bourbon, bearing a sweetish note with some unusual floral notes and a strong dash of vanilla. The body is big and the palate is very well balanced, flirting between sweet honeyed fruit notes, a strong vanilla undertone and some sharp spicy tones; the finish is long and spicy. A very well-crafted whiskey. Sip it at room temperature with a little spring water or over ice."

"The deep bronze color beautifully reflects the light... high-spirited, lusciously toasty, and animated bouquet that has top-notch Bourbon written all over it; dry, complex, and toasty palate."
